

# *San Benito Veterans War Memorial*

## ***Engraved Brick Fundraising Project***

The City of San Benito, the San Benito Economic Development Corporation and the San Benito Veterans Advisory Board are working together to build the Veterans' War Memorial in our community. The facility will be a park dedicated to the men and women from our area who served our country, especially those who were Killed or Missing in Action.

Construction of the Veterans War Memorial structure is underway with a targeted completion date of early 2010 scheduled. Upon completion, we will use the facility for patriotic ceremonies and gatherings such as Memorial Day and Veterans' Day.

Now, we are working to raise funds to create three life-size bronze statues that will add significantly to the solemn atmosphere are creating in the park. These statues will serve to honor our brave military personnel who have contributed greatly, allowing us to live in a free and democratic society. Cost for these statues is \$150,000.00.

The Commemorative Engraved Brick Paving Fundraising Project will help us meet our financial goals. You are invited to be a part of this exciting new project by purchasing an engraved paving brick. The engraved pavers will be a permanent record of your generosity and will be admired and appreciated for decades to come. The pavers will be incorporated into the landscaping in and around the new facility. Bricks may be purchased for veterans, non veterans, relatives, friends, and businesses.

Each engraved brick is priced at \$100. Sample bricks, such as those below, may include one, two or three lines. This brick recognition project is open to all citizens who wish to contribute to this memorial, and to recognized a loved-one who proudly served his/her the United States of America in the military service..
